

technology

InfoMart is leading the industry through our innovation, advancements and investments in technology. Our software streamlines the screening process, significantly reducing the turnaround time of profile information and enabling you to make informed hiring decisions faster than your competition.

WebASAP is InfoMart's proprietary web-based submission and tracking system for background checks. WebASAP is an ideal solution for maximizing cost savings, eliminating data entry errors and minimizing turnaround time. In addition, InfoMart can collect your requests and deliver our results through integration with your existing HRIS or applicant tracking system.

Instant access to applicant information without the need to install software – all you need is a web browser and an Internet connection.

Easy-to-use interface, including color-coded flags for "meets"/"does not meet" hiring criteria.

Print or email directly from WebASAP, including applicant profiles and Adverse Action letters and documentation.

customer service

InfoMart's account management team is committed to building sound working relationships - whether with industry giants or small family businesses. We strive to deliver personal, customized service to all of our clients, and our record indicates a legacy of overwhelming success in this mission.

InfoMart's solutions will assist you in implementing a successful screening program across multiple locations, providing your company with unmatched tools, systems and information. Our only line of business is background checks, which enables us to keenly focus our attention on being the most successful in the industry.

What does success mean to you?

InfoMart

GET THE WHOLE STORY.

Discover security. Discover success. Discover InfoMart.

How does your company define success? Lowering the cost per hire? Decreasing turnover? Maintaining a safe work environment? Hiring the most effective and productive employees? No matter how you define success, InfoMart has a solution to help your company succeed.

Falsified resumes, employee crime, negligent hiring lawsuits and just plain ineffective employees make pre-employment screening from InfoMart crucial to your continued success. As one of the largest employee information services in the country, InfoMart can help you screen and identify applicants with the greatest potential for future successful job performance.

We offer a technologically advanced data acquisition network, industry expertise, fast and accurate profiles and unrivaled customer service. All of this combined provides more than just screening services; it gives our clients complete solutions for their hiring needs. Contact InfoMart today to discover how our comprehensive services can become your successful background screening solution.

Solutions for secure and successful workplaces.

With today's increased security concerns and tight employment market, applicant screening plays a crucial role in the hiring process. InfoMart offers the most comprehensive suite of background searches available to ensure you **"Get the Whole Story"** on your potential employees. Each InfoMart program is tailored to the customer's industry and their related exposure to risk.

National Social Security Search

InfoMart's National Social Security Search (NSSS) can reveal all names used by the applicant, the applicant's current address and multiple known addresses over a 7-year history. Additionally, addresses obtained can be used in expanding an applicant's criminal history search.

Criminal History

InfoMart performs the most accurate criminal records searches of any applicant-screening provider in the industry. InfoMart accesses individual records in every county, state and federal courthouse. These searches can include checks for felony and misdemeanor arrests and/or convictions of any applicant.

Multi-State Criminal & Sex Offender Search

InfoMart's Multi-State Criminal Search identifies criminal offenses committed in jurisdictions outside of an applicant's resident county or offenses occurring outside of the normally reported time-frames. It is an effective tool which identifies criminal history records that would never be discovered otherwise. InfoMart's Sex Offender scan searches records spanning all 50 states, providing employers with almost instantaneous results, and much-improved peace of mind.

Gov't Watch List/Patriot Act

InfoMart's Government Watch List and Patriot Act searches identify applicants who may be included on a collection of government and private sector watch lists. These are individuals wanted by authorities in connection with some criminal activity or are prohibited from doing business with U.S. entities as a result of suspected terrorist, narcotic or other illegal activities.

Education Verification

InfoMart will provide confirmation of the applicant's graduation, degree earned, major and minor courses of study, graduation date and institution attended. InfoMart also validates that the school is an established and accredited institution.

Employment History Verification

InfoMart's employment history verifications validate dates of employment, terminations, job title or positions held and rehire eligibility. Expanded and customized employer interviews are also available.

Reference Checks

InfoMart personnel obtain reference information from family, friends, co-workers, supervisors or colleagues via open-ended interviews. Information gathered consists of, but is not limited to, character traits, reliability, demeanor, personality traits, attitude and behavior.

Credit History Check

InfoMart's credit history will confirm the applicant's name and Social Security Number, as well as current and former addresses. Also included are account standings, credit limits, current debts and public record information such as garnishments or bankruptcies.

Drug Testing

InfoMart acts as a third party administrator, taking the guesswork out of your drug testing program. Our lab-based testing options include MRO review, random selection, online results, and reporting and billing consolidated with your background checks. In addition, InfoMart offers several testing alternatives including instant onsite tests, oral fluid tests, hair testing, alcohol testing and onsite collection by trained collectors.

State Motor Vehicle History

InfoMart's Motor Vehicle History reveals an applicant's insurability, current license status, driving history points and DUI offenses. If requested, InfoMart will provide a list of your drivers that are due for renewal to provide compliance support for regulated industries.

Assessments

InfoMart offers two personality assessments — Career Match and Character Match. Career Match is designed to measure an individual's interpersonal and cognitive competencies in the areas most critical to job performance. Character Match helps identify applicants whose behavior, attitudes and work-related values are likely to interfere with their success as employees.
